Description:

GBN Explorer Stringer Pallet Nailing System with Stacker.

Nails (3 - 4 & 5) stringer pallets; min. pallet size is 32" x 24", max. is 60" x 72".

Specifications: (28) Hardened nailing chucks, standard compensating style, uses individual bulk nails. Hydraulic power pack is floor mounted. Includes outfeed rolls and Stacker. Special Option: 5-1/4" High pallet pass-through capacity (industry standard is 4");. Approx. (1,000 - 1,200) stringer pallets/day capacity. This is the only Single Nailer with Turner that does not back up; it runs one direction - top, then bottom, then top, and so forth. With no reverse, the production is between (1,000 - 1,200) Stringer Pallets per shift.

Machine State: Not in use, but still under Power Inspection: Available for Inspection (By Appointment Only)

Final Remove Date: 8/15/2018
