

HURST "205 HP" BOILER, WOOD-FIRED**Item # BD-230021 - Lot # 001**

Current Bid: **\$0** **No Reserve**
End Time: **281 Days, 34 Minutes**
(12/31/2025 2:00PM EST)
Brand/Model: **HURST "205 HP"**
Year MFG: **2012**
Machine Type: **BOILER, WOOD-FIRED**
Serial #: **FB1325-15-15 / JOB 1**
Elect./Voltage: **460 V, 60 Cy, 3 Ph.**
Location: **HANCOCK, ME**
Dimensions: **0" L x 0" W x 0" H**
Weight: **0 Lbs.**
Comment: If you need to turn wood waste into energy, look no further!

Description:

HURST 205 HP / 6.9 mmBTU / 15 PSIG Wet Woody Biomass-Fired Steam Plant/Boiler

Specifications:

- Complete in-place system with the following features:
- 205 HP Biomass Wood Fired Boiler, 7,073 PPH, Gross steam output at 212° F.
- "FB-1332-15-UF" Low pressure "fire tube"-design fire box, Built in accordance with ASME Code.

Operator Interface:

- ALLEN-BRADLEY PLC, with Power Supply Rack, Pentium-based computer with Network & Modem remote communication capabilities with Operator interface software.
- RSView Runtime for Automatic operating of steam pressure, temperatures, fuel flow, & combustion airflow.
- Control system incorporates a 4 - 20 mA steam pressure transmitter to sense any changes in steam flow, boiler pressure, & regulates fuel feed & combustion airflow accordingly.

Complete with:

- Additional details on file for scope of this Complete System's original project.

NOTE: Building that houses Boiler can be included with Boiler if desired by Buyer.

Final Remove Date: 12/31/2025
